

Combo Run Monthly Special

In a continued effort to support your changing needs, TVL is repeating our popular offer for combo runs in 2011. The list prices below are for postcards, note cards, or business cards and if you have a project that matches the stock and ink specifications, we would certainly look at running it on the same press sheet for savings!

- These prices are based on receipt of “press ready files” and include full color printing on both sides of 100# Dull Coated Cover stock.
- You don’t have to be limited to just 4 color! Talk to us about how adding coating or spot varnish techniques could enhance your project for very little additional cost.

If you would like us to prepare your electronic files, we offer 2 options:

1. If you can provide your photo(s) and logo in electronic format and know precisely what the copy should say, the cost is \$79.00
2. If you would like us to develop your design, and scan photos or logos, the cost is \$179.00
