# Electronic PrePress Specifications

## TVL supports the following software applications:

Mac Applications:	Windows Applications:
<ul style="list-style-type: none"><li>• Quark XPress - up to version 6.51</li><li>• PageMaker - up to version 7.01</li><li>• InDesign - up to version CS3</li><li>• FreeHand - up to version 8.01</li><li>• Illustrator - up to version CS3</li><li>• PhotoShop - up to version CS</li><li>• CorelDRAW - up to version 6.0</li></ul>	<ul style="list-style-type: none"><li>• Quark XPress - up to version 6.51</li><li>• PageMaker - up to version 7.0</li><li>• InDesign - up to version CS2</li><li>• Illustrator - up to version 9.02</li><li>• PhotoShop - up to version 6.01</li><li>• CorelDRAW - up to version 8.0</li><li>• MS Publisher - up to 2007</li></ul>

### Files:

TVL can accept application files from the above applications, as well as PDF, EPS and TIF files from most applications (both Mac and PC). We can no longer accept PostScript files.

### Media:

TVL can accept files that are provided on ZIP disks (100 and 250), 3.5 floppy disks, CD and DVD. Files may also be sent to us electronically via Internet Email (files sent via email must be no larger than 5 megs), or FTP (ask about our secure FTP service).

### Imaging:

Imaging is done using our fully automated Agfa Palladio platesetter (we no longer support film based imaging).

### Proofing:

TVL uses the Kodak Digital Matchprint color proofing system, 24" wide, for color contract proofs. Digital imposition Blueline proofs are made on our large format Agfa Sherpa proofer. TVL can also provide PDF proofs via Email for final inspection.

### Trapping:

All trapping is done with In-RIP trapping, using our Artwork System's Nexus workflow RIP.

### Pagination:

All press-ready imposition/pagination is fully automated using Kodak Preps imposition software. For multi page documents, please prepare your artwork in Reader Spreads, never Printer Spreads.

### Fonts:

Customers must provide ALL fonts used in application files, and fonts that are used in linked EPS files, including both Screen Fonts and printer fonts. If fonts are missing TVL will try to substitute the missing fonts, upon customer approval.
